LETTRES LA JENNIE, SUR MONTMORCENY, LHERMITAGE, ANDILLY, SAINT-LEU, CHANTILLY, ERMENONVILLE, ET LES ENVIRONS AVEC DES D ETAILS IN EDITS OU PUIS ES A

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Original publisher: Washington, D. C. : U. S. Government Accountability Office, 2004 OCLC Number: (OCoLC)57390030 Subject: Medicare -- Claims administration -- United States. Excerpt: . . . administration contractors closed more than half of the cases during their initial computer screening process. That is, they often found that the mistaken payments totaled less than 1, 000, another insurer voluntarily paid the claims, or the COBC updated the CWF to show that the beneficiary did not have other primary coverage, such as an employer-sponsored group health plan, during the time the services were delivered. In such instances, contractors are not required to correspond with employers and insurers. It is only a relatively smaller number of cases - those that pass the initial screening process - that require significant contractor resources to send demand letters, process the responses, and archive file materials. As shown in figure 1, of the 49, 240 EGHP cases processed by contractors in fiscal year 2000, 20, 487 - about 42 percent - were resource-intensive cases that entailed sending a demand letter. In contrast, only 1, 276 cases - about 17 percent - involved a demand letter in fiscal year 2003. Figure 1: EGHP Debt Cases, Fiscal Years 2000, 2001, and 2003 Note: Recovery and demand totals are based on the year the cases were assigned to contractors. CMS did not assign new EGHP cases to contractors in 2002, to allow them time to reduce their backlog of old cases. The number of recoveries for 2003 cases may increase, as the period for recovering debt is still open for about 28 percent of cases. CMSs payments to contractors for recovery activities have not reflected the sharp decline in the number of EGHP debt cases...
