An exciting new discovery finds its way into the hands of giant Apex Pharmaceuticals following the death of a young scientist. Despite the many red flags, Apex's tyrannical CEO Maxwell Hall sees only the multibillion dollar potential of the product and rushes it into development. ### Reviews

*It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*It is really a remarkable ebook that I actually have ever studied. It is actually loaded with knowledge and wisdom. You will not truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).*
